

## CORPORATE QUALITY POLICY

**PROCAM** is committed to implementing a comprehensive Quality Management System throughout the organization.

The Management ensures to apply the Quality Management System techniques in all areas of work with the aim of meeting all agreed requirements of clients.

This is done by strictly maintaining the contractual conditions and fulfilling them within specified time frame and with full regard to Quality, Health, Safety and Environment.

It is our commitment to do the work right, the first time and every time.

The Management and our associate vendors will also comply with the Quality Management System procedures set by the Company.

All learning points on completion of every contract will be reviewed and the best practices will be cascaded within the organization.

The Management will ensure continuous improvement by reviewing the QMS procedures and targets to achieve higher standards.
